**John T. Platts : A Dictionary of Urdu Classical Hindi and English** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Dictionary of Urdu Classical Hindi and English:

7 of 7 people found the following review helpful. A unique, specialized dictionary. By Erik This dictionary is not ideal for most students and learners of Urdu or Hindi. It has a special function though. It is especially useful for determining words by their origin, especially from Persian and Arabic. It gives multiple examples of a word with varying pronunciations and spellings. There are a lot of synonyms in Hindi/Urdu. There is often a Sanskrit, Arabic, Persian and maybe Turkish or English version of the same word and this dictionary is beneficial in that regard. Also this dictionary was developed back when Hindi/Urdu was not as fractured by sectarian considerations. Since the division into Pakistan and India Islamic influence has increased the Arabic emphasis of Urdu vocabulary and Hindu influence has increased the Sanskrit influence in Hindi vocabulary. 0 of 15 people found the following review helpful. Well.. not bad! By Jac The time for delivery was respected, although I must say that it was quite long. But, since I live in Italy I

may think it's normal such a time. As far as quality is concerned, the product arrived quite ok, a part from some little signs of the travel (the box was a little ruined as if it had received some strokes during the travel...). The dictionary was ok: it had some "damages" though, but I may presume it's due to the editor, because also in normal bookshops the dictionaries look just like that (or even worse..). The price was perfect: I saved something like 15 on the item even though I had to pay for the delivery.

Munshiram rep. hb. best available edition, very legible printing, good binding. classic reference work
