**R. S. Yeoman : A Guide Book of United States Coins 2015: The Official Red Book Hardcover** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of United States Coins 2015: The Official Red Book Hardcover:

0 of 0 people found the following review helpful. A godsend to coin collectorsBy Joel V. BartosThis book is a godsend to coin collectors. Even though in 2015 silver was more expensive, so the prices in this particular red book are a little high, all I had to do was take 2/3 the price to get it to be a current accurate price. It was much less expensive

to order an outdated red book, so I enjoy it immensely. 2 of 2 people found the following review helpful. Excellent reference, especially in electronic format. By Eric Just wish there was more information than there is. Feel left wanting more. Overall text reads easily and is broken out in easy to reference sections. Excellent material and (mostly) exactly what I was looking for. I purchased the electronic format which makes searching easy. 0 of 0 people found the following review helpful. Perfect Book. By Wilson W. Kwong Very informative guide book so history of the various coin values can be retrieved. I often find this extremely useful for my determination of buying and/or selling values. In addition, with the up-to-date coin values listed, I can deduce what is worth to collect. I pretty much collected each year's guide book. When you are a coin collector, this guide book is a must have item. Strongly recommended for all the US coin collectors.

The Official Red Book, now in its 68th year, is famous nationwide as the premiere resource for the U.S. coin collectors. This best-selling "one-volume library" helps you make smart buying decisions as you build your collection. Millions of readers rely on it for real-world coin values, auction records, full-color photographs, detailed technical data, and up-to-date mintages. You'll benefit from its practical essays on grading, investing, auctions, and other hobby subjects - and of course, its pricing for 7,000-plus coins, in up to 9 grades each, gathered from more than 100 of the nation's leading coin dealers! It's no wonder more than 23 million copies of the Red Book have been sold since the 1st edition.
