**R. S. Yeoman : A Guide Book of United States Coins 2015: The Official Red Book Spiral (Official Red Book: A Guide Book of United States Coins (Spiral))** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of United States Coins 2015: The Official Red Book Spiral (Official Red Book: A Guide Book of United States Coins (Spiral)):

0 of 0 people found the following review helpful. Beyond question the absolute best guide to pricing and grading for

serious coin collectors. Highly Recommended. By Michael R. This is the 3rd edition of this greatly expanded version of the long-time favorite of coin collectors by Yeoman. It has very good illustrations and even more supporting content than the past two editions, if that's possible. If you are a serious collector, this is the reference book you need as your guide to pricing for retail sales. The companion "Blue Book" guide is also the #1 guide for dealer prices. Highly Recommended! 46 of 46 people found the following review helpful. STARTERS GET THIS By SolarRaistlinZ This is what you want in a collector's guide. It's got the years and types and prices for each coin going back to the early 1700s. The spiral binding is especially useful for table top use when looking through a pile of coins. Color pics and the description and detail is amazing. It even gives a description for the grade of individual coin styles!!!! what should a BU Washington quarter look like vs a Morgan dollar - it's all here. If you are starting out, you'll want this one first. Blue is for pros and those who are getting more into the investment side. The red book gives just enough info to get you started and excited and feel a heck of a lot more knowledgeable with background and history, reference and premo statistics. 0 of 0 people found the following review helpful. A Guide Book of United States Coins 2015, The Official Spiral Red Book By TELL IT LIKE IT IS ! This is one of the more accurate coin collection books of retail prices for all U.S. coins. It covers every U.S. coinage ever made including Gold coins, Commemorative's, Tokens, Bullion Coins, Proof and Mint Set's. This is one of the better books you'll need to put a Retail Value to your Collection. I have collected these books for years they seem to get better every year.

The Official Red Book - A Guide Book of United States Coins - is 68 years young and going strong. Collectors around the country love the convenience of the spiralbound edition. It opens up and lies flat on a table while you study your coin collection. And of course it includes all the grade-by-grade values, auction records, historical background, detailed specifications, high-resolution photographs, and accurate mintage data that turn a new coin collector into an educated numismatist. How rare are your coins? How much are they worth? The Red Book tells you, covering everything from early colonial copper tokens to hefty Old West silver dollars and dazzling gold coins. You'll find prices for more than 6,000 coins, tokens, medals, sets, and other collectibles. You'll also round out your education in commemoratives, Proof and Mint coins, error coins. Civil War tokens, Confederate coins, private gold, and all the latest National Park quarters, Presidential and Native American dollars, Lincoln cents, and more. Articles on investing, grading coins, and detecting counterfeits will make you a savvy collector; and entertaining essays on the history of American coinage, shipwrecks and hoards, and the modern rare-coin market give you an inside look at "the hobby of kings." These are just some of the features, invaluable Red Book-the world's best-selling coin price guide.
