**Q. David Bowers : A Guide Book of United States Type Coins (The Official Red Book)** before purchasing it in order to gage whether or not it would be worth my time, and all praised A Guide Book of United States Type Coins (The Official Red Book):

0 of 0 people found the following review helpful. The book is very detailed about all the various coins ...By CustomerThe book is very detailed about all the various coins and has been very helpful. I will continue to use it as a reference. I would have appreciated more information about ways to display or maintain a type collection.8 of 8

people found the following review helpful. A great way to start a type collection. By Jim If you want to start a "type collection" of US coins, this is the place to start. This book gives you the information that you need to get started. It also give you the price information that you need to make informed buying decisions. The history and other information will be extremely usefull to collectors that are new to this hobby. If you are a more experienced collector, the detailed numerical information will be a be help in improving your collection. 0 of 0 people found the following review helpful. Five Stars By Retired Navy Guy Complete and informative. Well organized.

2nd Edition. This comprehensive 288-page full-color book details how to begin the ideal numismatic pursuit: a collection of United States coins by type. Major updates to the 2nd edition are new market values, new certified-coin population data, updated Market Price Performance charts, new coins, new section on Great Collectors and Collections of the Past, new historical illustrations, updated auction records and a bullion-value chart. Whether you decide to collect from the beginning of United States coins in the late 1700s, or if you choose coins from the 1800s and 1900s, this book will provide you the reference tools you need: mintages, grades, collecting tips, prices, and more, all in one essential historical reference and price guide.
