Laurence M. Porter : A Gustave Flaubert Encyclopedia before purchasing it in order to gage whether or not it would be worth my time, and all praised A Gustave Flaubert Encyclopedia:

Gustave Flaubert is probably the most famous novelist of nineteenth-century France, and his best known work, Madame Bovary, is read in numerous comparative literature and French courses. His fiction set the standard to which other authors turned to learn their craft, and his cult of art and his unrelenting search for stylistic perfection inspired

many later writers, such as Maupassant, Proust, Conrad, Faulkner, and Joyce. His denunciation of materialistic, corrupt society; his fascination with altered states of consciousness; his oscillation between metaphysical longings and a radical nihilism; and his deep-seated mistrust of the adequacy of words themselves anticipate the works of contemporary authors. This reference is a convenient guide to his life and writings. Included in this volume are several hundred alphabetically arranged entries on Flaubert's individual works and major characters; historical persons and events that shaped his life; the themes that run throughout his writings; the critical approaches employed by scholars studying his works; and related topics of interest. Each entry is written by an expert contributor and most close with a brief bibliography. All of his major works are treated at length, and the volume mentions nearly every unpublished project of his that has a title. The book concludes with a selected, general bibliography of major studies.

From Booklist Though the emphasis is on Flaubert's works, there are also entries for some characters, critics, historical events, literary influences, and places.
